Welcome to SmartClass!

SmartClass provides innovative language teaching solutions for schools, universities, and educational centers, catering to in-person, hybrid, and online environments.

Our integrated products enhance engagement, improve fluency, and simplify classroom management, making language learning effective and enjoyable for both students and teachers.

Who We Are

Robotel was founded in 1984 and is a privately held, Canadian corporation, headquartered in the Montréal area. Robotel operates globally with clients in over 90 countries. The company has subsidiary business operations in the United States and China and channel partners around the world.

What We Do

We develop, manufacture and market language teaching solutions for K-12 schools, school districts, colleges, universities, ministries of education and corporate & government training departments. SmartClass is our flagship language teaching solution. SmartClass combines a digital platform and language lab with educational content, empowering schools, and universities to teach foreign languages in an innovative and engaging way and to provide students enriched opportunities to practice speaking, gain confidence, and improve fluency in all language skills

↑ 22.9
pts

Average Improvement

Students improved by 22.9 points on average, equivalent to advancing at least one CEFR level within just four months of using SmartClass.*

↑ 2x

Exceptional Progress for Dedicated Users

Students who engaged with the platform for over 5 hours per week doubled their learning outcomes compared to those not using the platform.

Why Choose SmartClass?

Language serves as a foundation for success in all subject areas.

The SmartClass Teaching Platform enables teachers to seamlessly integrate language development with curricular content, ensuring language learners can fully engage with and master grade-level materials while improving their language skills and becoming more confident to speak in the target language.

For Language Teachers

Comprehensive Resources

Access to a wealth of teaching materials and tools in one convenient platform.

Curriculum Guides

Access to comprehensive lesson plans tailored to different languages and proficiency levels.

Professional Development and Coaching

Engage in ongoing training to enhance teaching strategies and use of technology in the classroom.

Smart Activity Builder

Create custom activities in any language using 5 flexible templates. Import your existing curriculum or build from scratch. This feature addresses the #1 teacher request: curriculum flexibility that competitors can't match.

↑ **25.8** pts

Higher Proficiency at Lower Levels

Students starting at A1 (beginner) level experienced the highest average improvement of 25.8 points, showing that SmartClass is particularly effective in helping beginners build foundational language skills quickly and progress through multiple levels.

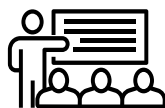

For School Administrators

Data-Driven Decisions

Utilize analytics to assess program effectiveness and student growth.

Enhanced Implementation

Provide pedagogical coaching for your staff to maximize the impact of instructional resources, including targeted Sheltered English Instruction.

Would you like your teachers to ...

- immerse students in the target language through captivating activities?
- increase speaking and listening practice in the classroom and at home?
- save time thanks to auto-graded activities?
- choose from thousands of pre-loadable activities (available in English, German, Spanish, and Arabic)?
- easily create custom language-learning activities for any language?
- better understand their students' learning progress, strengths, and weaknesses?

b

Would you like your students to ...

- increase speaking practice in the classroom and at home?
- be prepared for real-life application of the foreign language?
- reach fluency in the foreign language?
- participate in group and partner discussions/debates?
- be involved in and reflect on their learning process?

Would you like your school to ...

- access progress monitoring tools for administrators, teachers, and students?
- show parents that language learning is your core mission with tangible evidence?
- increase your students' overall language skills?
- attract and engage students to foster a lasting connection to language learning?
- improve students' and school test scores?
- stand out for embracing innovation?

The Perfect Language Lab!

Turn your school's computer lab into an immersive language learning space with SmartClass.

Whether you're looking to improve your students' listening or speaking skills or focus on providing engaging practice, SmartClass will help students master these essential language abilities.

How does it work?

The SmartClass Language Lab empowers teachers with control panels for launching classroom-based activities like pairing, live testing, presentations, and real-time student monitoring.

Pairing

Live Testing

Presentations

Student Monitoring

20+ Templates

Teachers can also manage self-study activities, easily creating exercises using 20 customizable templates or integrating pre-made SmartClass curricula.

Highlights include AI-powered conversation and pronunciation activities that provide instant feedback to students, supporting skill development.

Additionally, teachers can track student progress through detailed reports, while students benefit from the flexibility to engage in activities both in and out of the classroom.

Features

- 1 Increased Speaking Practice:** Foster organic interactions through pairing and grouping.
- 2 All-in-one solution:** Fully integrated with our Teaching Platform, teachers can keep learning fun and engaging by assigning activities for homework outside the language lab and expand practice time.
- 3 Simultaneous Testing:** Record and assess students in real time.
- 4 Smart Activity Builder:** Create unlimited custom activities using 5 flexible templates, or choose from our structured curricula with 5,800+ pre-made activities.
- 5 Live Feedback:** Listen to students' conversations and provide real-time feedback.
- 6 Superior Audio Quality:** Experience unparalleled sound quality for effective communication.

SmartClass Headsets

Specifically designed for language learning, SmartClass headsets will cancel out background noise so your students can simultaneously speak and listen in the classroom. Noise-canceling over-the-ear headphones with built-in microphones ensure that students' audio is clear and their pronunciation feedback is accurate.

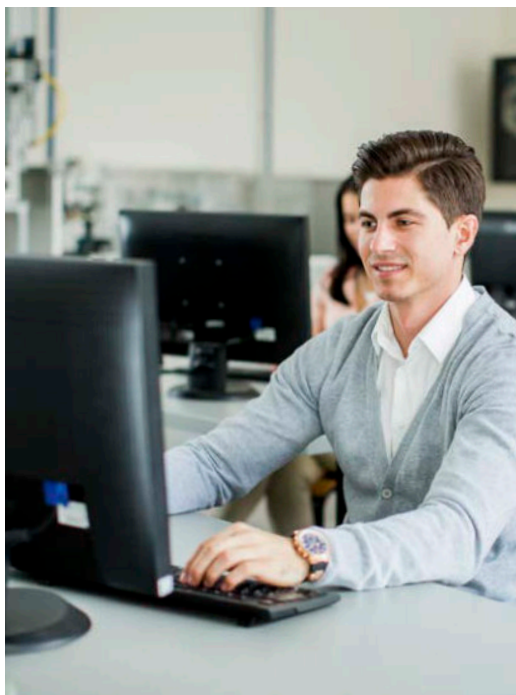

Superior Audio Quality

Audio Hardware Matrix is simply the best language laboratory audio intercom: Our audio matrix system improves the quality of the audio communication between teachers and students within the lab.

“ SmartClass is a practical, intuitive and functional platform. Easy to work with!

**- Patricia Antunes, English Teacher,
RIANT Languages Studio (Mexico)**

Extensive Activity Library

5800+

Over 5,800 ready-to-use digital activities focusing on speaking, listening, reading, and writing.

Auto-Grading Features

65%

65% of activities are automatically graded, saving teachers time.

Structured Lesson Plans

Comprehensive teacher handbooks include answer keys, vocabulary lists, and language tips.

AI-Conversations

24+

In addition to AI pronunciation, there are also 24 auto-graded AI Conversation activities for students to practice real-world conversation and master fluency faster!

Teaching Platform

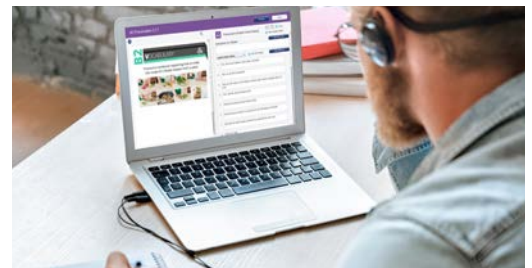

Versatile Teaching for Every Environment

The SmartClass Teaching Platform is designed for in-person, hybrid, or online classes, providing educators with tools to personalize learning experiences.

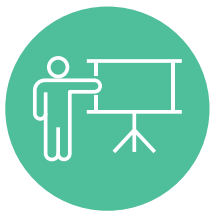

Smart Activity Builder

The SmartClass Teaching Platform is a cloud-based language learning solution with unlimited, free teacher licenses and no installation requirements. Accessible via any browser, both teachers and students can connect to the platform from anywhere, on any device.

Smart Activity Builder: Use any of our 5 activity templates to create your own custom language teaching activities. Now available for any language, teachers can create their own activities or use existing curricula. With over 5,800 pre-made activities also available in English, German, Spanish, and Arabic, you have the flexibility to build from scratch or assign ready-made content.

Additional Features That Make Teaching Easier

- 1** **Adaptable Curriculum:** Access over 5,800 activities for English, German, Spanish, and Arabic, engaging students at all levels.
- 2** **AI-Powered Tools:** Enhance pronunciation and conversation practice.
- 3** **7 Speaking Activities:** Utilize seven different speaking activities, 4 of which are automatically graded to get your students speaking in the target language. AI-graded Open Recordings for the English Curriculum are available.
- 4** **Progress Monitoring:** Track progress with specialized usage reports for admins, teachers, and students.

If you want to ...

- personalize learning and engage students
- increase fluency with AI-powered pronunciation
- double your students' learning outcomes
- increase students' speaking time in class and at home
- track and measure student growth and progress
- save time with auto-graded activities

Teaching Platform and Language Lab Differences

	Teaching Platform	Language Lab
Purpose	For teachers who need a flexible platform for use in the classroom or at home.	For schools requiring a fixed, on-premises language lab for immersive learning.
Key Features	5,800 ready-to-assign activities in English, Spanish, German, and Arabic. 20+ activity templates. - AI-based pronunciation with instant feedback/grading. - Guided AI conversations - Record or type feedback for students. - Usage reports for admins/teachers/students. - Unlimited teacher accounts, courses, and classes. 50% auto-graded activities. - AI Graded Open Recordings and Smart Activity Builder	Includes all Teaching Platform features, plus: - Live pairings and groupings for student interaction. - Simultaneous testing and test preparation. - Screen-sharing between teacher and students. - Live teacher controls for group or individual interaction. - Live chat interactions and/or audio - Screen monitoring capabilities for personalized training.
Environment	Flexible: supports classroom and remote teaching environments.	Fixed: designed for physical, dedicated language labs.
Interaction Mode	Highly interactive and allows students to be in control of their comprehension and language learning.	Highly interactive, leveraging real-time tools for student collaboration and engagement.
Technical Capability	Cloud-based platform that is accessible anytime, anywhere.	Requires on-site setup with additional real-time features for classroom use.
Level of Control	Moderate: Teachers can assign tasks, monitor progress, and provide feedback.	High: Teachers can interact live, control sessions, and engage students individually or in groups.
Best Fit For	Individual teachers or institutions offering both remote and classroom learning.	Institutions prioritizing structured, immersive language practice in a lab
Differentiators	- High flexibility for use cases. - Fully remote-accessible.	- Real-time interaction tools. - Enhanced in-class engagement capabilities.

Both solutions share foundational features: The Language Teaching Platform excels in flexibility for hybrid environments, while the Language Lab emphasizes immersive, interactive learning in physical spaces.

English Curriculum

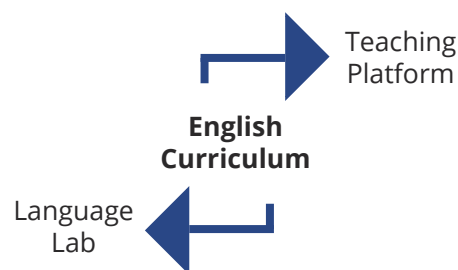

Comprehensive English Curriculum

SmartClass English is designed according to the CEFR proficiency levels A1-C, for beginners through advanced learners.

How does it work?

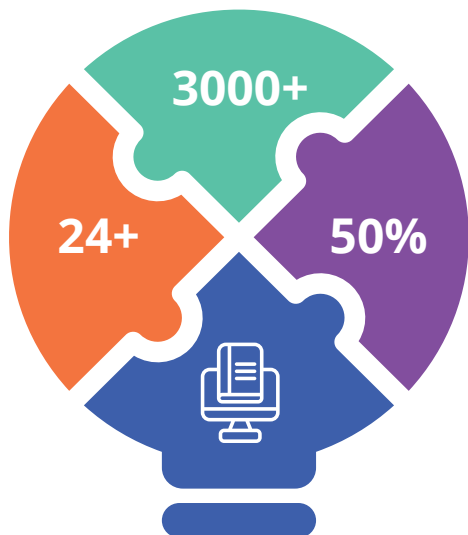

1. **Choose** from over 3,000 pre-loaded activities.
2. **Assign** the selected activities and have students complete them using their own devices at home or in class.
3. **Review and grade** the students' responses to the activities. Half are automatically graded. You can leave additional oral and written feedback for students.

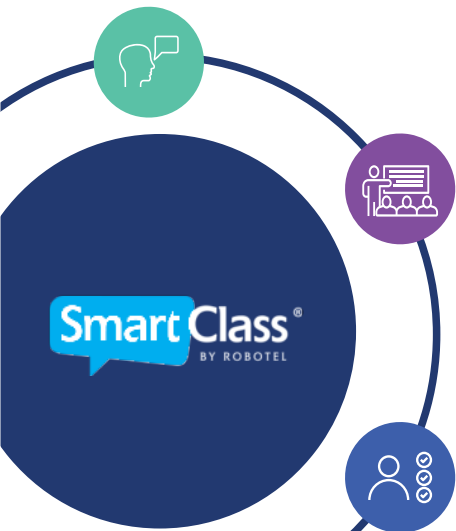

“As a teacher who is always trying to bring the best learning experience to my students, SmartClass is my good companion because of its simple but powerful tools in creating rich, interesting lessons. The pairing/group activity function has provided every student chances to raise their voice and to be heard in every lesson. With SmartClass, my students are now becoming more engaged, more encouraged, more excited to speak up.”

- Ms. Van, Lecturer in English, Saigon University

Curriculum Highlights

- 1 **Extensive Activity Library:** Over 3,000 ready-to-use digital activities focusing on speaking, listening, reading, and writing.
- 2 **Auto-Grading Features:** 50% of activities are automatically graded, saving teachers time.
- 3 **Structured Lesson Plans:** Comprehensive teacher handbooks include answer keys, vocabulary lists, and language tips.
- 4 **AI Conversations:** In addition to AI Pronunciation, there are also 24 auto-graded AI Conversation activities for students to practice real-world conversation and master fluency faster!

Engage your students

- 1 Increase speaking time with diverse activities tailored for all learning styles.
- 2 Personalize lessons with a variety of adaptable templates.
- 3 Motivate students to improve with automatic redo capabilities so students can practice activities until they get them all right.
- 4 Empower students thanks to auto-graded activities that provide instant feedback on performance.

Additional Language Curricula

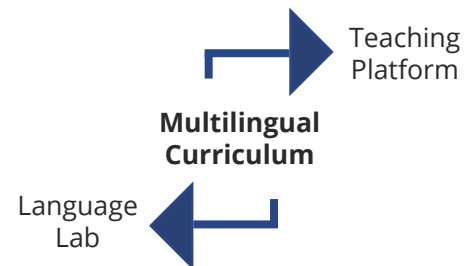

Expand Your School's Language Offerings

In addition to our English Curriculum, SmartClass offers structured beginner through intermediate courses for teaching **German, Spanish, and Arabic**.

How does it work?

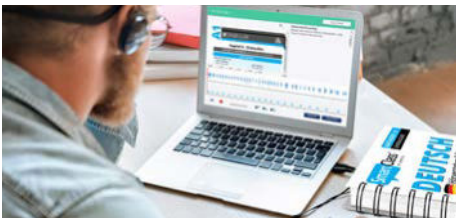

The SmartClass Espanol, Deutsch and Arabic curricula work effortlessly with both the Language Laboratory and the Teaching Platform, offering teachers the flexibility to upload full courses or selectively filter content by activity type, proficiency level, or theme.

Each curriculum includes detailed guides, available in both print and PDF formats, which provide resources, materials, and teaching strategies, making lesson planning and classroom engagement straightforward and effective.

Curriculum Highlights

Structured levels (Pre)A1-A2

Ensuring a smooth progression from foundational skills to advanced writing and speaking.

Auto-graded activities

50% of activities provide immediate feedback to students.

Diverse Tasks

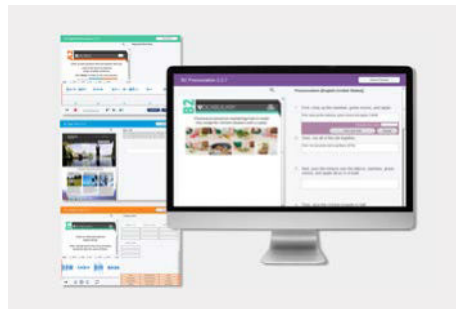

Conversation practice, authentic videos, grammar reviews, and 20 different activity options.

Student-centered learning

Redo activities that help students practice at their own pace and take ownership of their learning.

Flexibility

Download our curriculum in full, or filter and select specific activities to supplement your daily lessons.

Teachers can also leverage the Smart Activity Builder to create custom activities in German, Spanish, or Arabic, fully integrates with the platform.

German Curriculum

Smart Activity Builder: Create Custom Activities in ANY Language

Create Activities

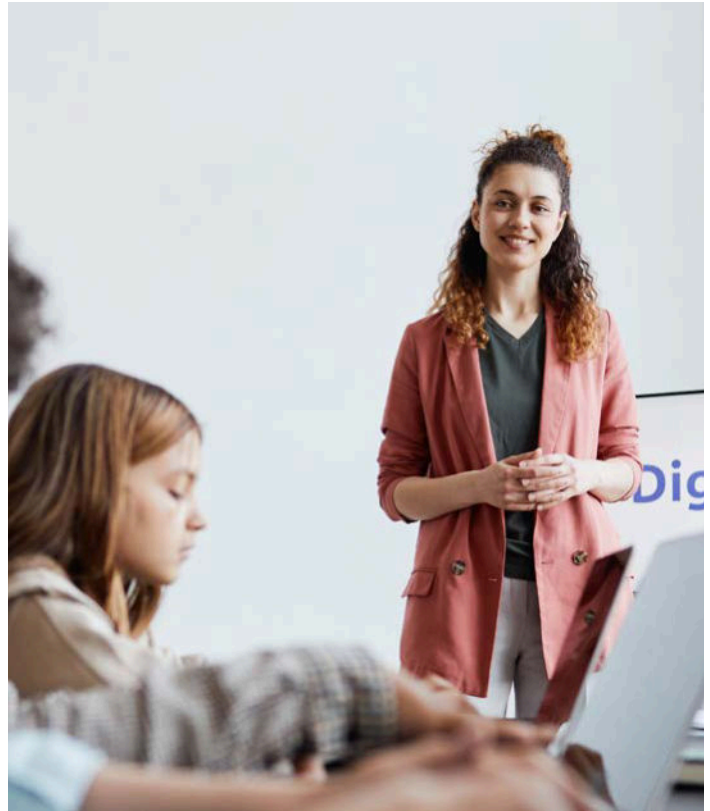

Easily create your own activities by importing or authoring them in our platform.

Our Smart Activity Builder allows teachers to create unlimited custom activities for any language: Italian, Mandarin, French, Japanese, and more. With 5 flexible templates, you can build engaging lessons tailored to your students' needs, import your existing curriculum, or customize from thousands of pre-made activities.

Assign Activities

Have students complete the assigned activities using their smartphones, tablets, or computers at home or in class.

Additional Features

Engage your students

All SmartClass' curricula take advantage of the 20 different activity types that are possible within the SmartClass Teaching Platform.

Save Time Grading

Create engaging activities for your students and have the platform grade most of them for you. Not only will autograded activities save time, but it will also refocus your time on providing valuable feedback to your students on their speaking and writing assignments.

Increase Speaking Time

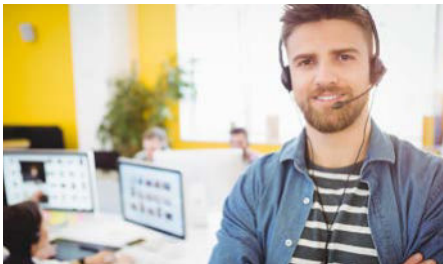

Double your students' overall learning growth and increase their speaking time inside and outside the classroom. With many speaking-focused templates, your students will be able to record, listen to themselves, and master the foreign language more rapidly and with greater success.

Teacher and Student Resources and Support

Support for Educators

SmartClass believes in equipping teachers with the necessary tools for success.

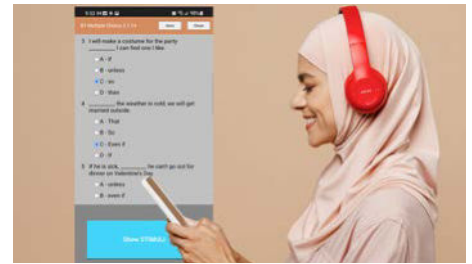

Available Support and Resources

Training Programs: Comprehensive training to leverage SmartClass to its full potential and maximize your benefits.

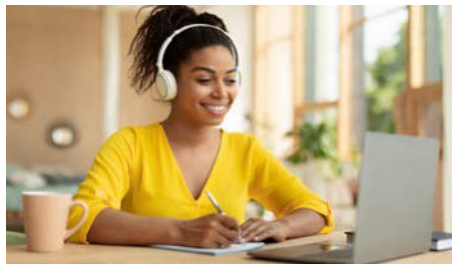

Teacher Handbooks: Detailed resources for lesson planning and grading.

English Placement Test: A 45-minute assessment to place students at the correct level within our SmartClass English Curriculum.

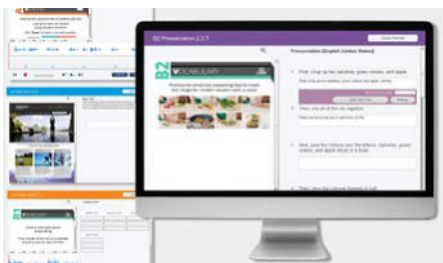

Student Resource Books: Complementary materials for English language learners.

Pedagogical Mentoring: Guidance from experienced language educators.

Curriculum Alignment: Expert assistance in aligning teaching standards with SmartClass content.

Software Maintenance Agreement (SMA): Access to updates and innovative features, and technical support from our specialists.

Noise-cancelling over-the-ear headphones: With built-in microphones, they ensure that students' audio is clear and their pronunciation feedback is accurate.
