

Teaching Platform

The SmartClass Teaching Platform is designed for in-person, hybrid, or online classes, providing educators with tools to personalize learning experiences.

How does it work?

The SmartClass Teaching Platform is a cloud-based language learning solution with no installation requirement. Accessible via any browser, both teachers and students can connect to the platform from anywhere, on any device.

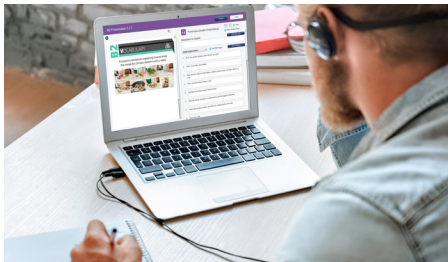

Create or Select Activities

Assign Activities

Review and Grade

Create or Select Activities:

Teachers can choose from pre-loaded activities within English, German, Spanish, and Arabic courses or create custom activities by importing or authoring directly in the platform.

Assign Activities:

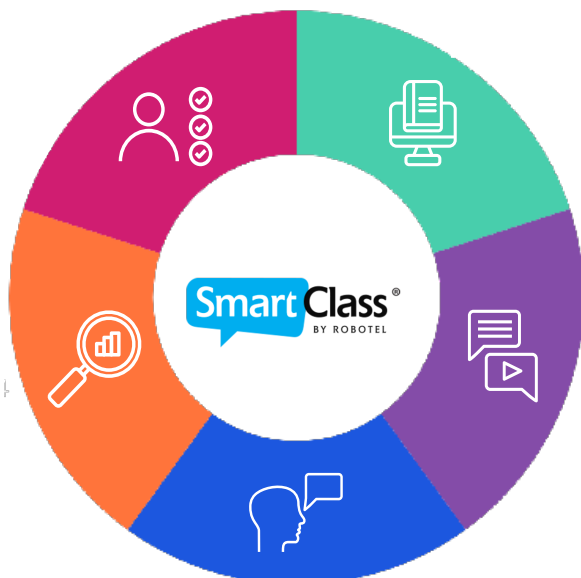

Students complete assignments on their smartphones, tablets, or computers, whether in class or at home.

Review and Grade:

Automatically graded activities streamline assessments, and teachers can add oral or written feedback for assignments that require personal review.

Features

- 1 Adaptable Curriculum:** Access over 5,800 activities for English, German, Spanish, and Arabic, engaging students at all levels.
- 2 AI-Powered Tools:** Enhance pronunciation and conversation practice.
- 3 7 Speaking Activities:** Utilize seven different speaking activity templates to get your students speaking in the target language. *Three of these templates are auto-graded.*
- 4 Progress Monitoring:** Track progress with specialized usage reports for admins, teachers, and students.
- 5 Creating your Own Activities:** Use any of our 20 activity templates to create your own language teaching activities.

Why Choose SmartClass?

Language serves as a foundation for success in all subject areas.

SmartClass aims to give confidence to students in their ability to speak the targeted language. The focus is on speaking activities even though SmartClass allows teachers to cover all linguistic abilities.

For Language Teachers

Increase fluency and double your students' learning outcomes.

Personalize learning and engage students with AI-powered pronunciation and 20 different templates.

Save time with auto-graded activities and a curriculum that can be used year after year.

For School Administrators

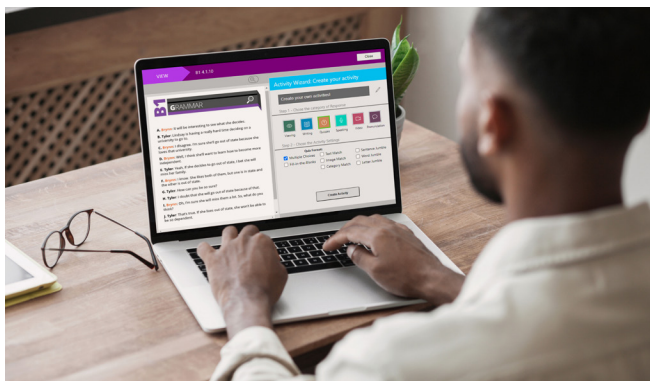

Data-Driven Decisions: Utilize analytics to assess program effectiveness and students' growth.

Equity in Education: Ensure all students have access to high-quality language instruction, promoting inclusivity and diversity.

Enhanced Implementation Support: Provide pedagogical coaching for your staff to maximize the impact of instructional resources.
